# 186 COUNTRY CLUB WAY

---

Welcome to this stunning property at Indian Pond Estates. Open and welcoming, bold, bright and beautiful is the only way to describe it! Take in the view of the 5th tee signature hole right outside your window. The main living space is all on one floor, making this contemporary a one of a kind offering. Recently renovated and boasting an open floor plan that creates a natural flow of light throughout, this home is perfect for entertaining. The open kitchen with large center island and modern style is a cook's dream come true. Wainscoting in the dining room, high ceilings with crown molding, and a private library. Two fire places, built-ins plus a master en-suite with two walk-in closets and a gorgeous oasis of a master bath set this home apart from the rest. Lower level is a full walk-out with a home gym, media room and gaming area with a full bath. This could be a suitable area for an in-law if that is a consideration. Separate laundry and mud room lead to a huge three car garage. A bonus room on second floor is prepped and ready for your finishing touches with plans in hand.
